Section 1 – Introduction

This directory provides a list of BlueCross Total, Total Value and Blue Basic's network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage (EOC).

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory. If you have been going to one network provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-network providers.

If you are searching for a new provider, please call the phone number of the provider listed in this directory to determine if he or she is accepting new patients.

Out-of-network providers are under no obligation to treat BlueCross Total, Total Value and Blue Basic enrollees, except in emergencies. For a decision about whether we will cover an out-of-network service, we encourage you or your provider to ask us for a pre-service organization determination before you receive the service. Please call our Customer Service Department at 1-855-204-2744. We are available for phone calls 8 a.m. to 8 p.m., Eastern Time, Monday through Friday. Our automated phone system handles calls received after 8 p.m. and on Saturdays, Sundays, and holidays. From October 1 through March 31, we are available 8 a.m. to 8 p.m., Eastern Time, seven days a week. TTY users should call 711.

You may also refer to your Evidence of Coverage for more information, including the cost-sharing that applies to out-of-network services.

If an out-of-network provider sends you a bill that you think we should pay, please contact Customer Service or send the bill to us for payment. We will pay your doctor for our share of the bill and will let you know what, if anything, you must pay. It is best to ask an out-of-network provider to bill us first; but if you have already paid for the covered services, we will reimburse you for our share of the cost. (Please note that we cannot pay a provider who has opted out of the Medicare program. Check with your provider before receiving services to confirm that they have not opted out of Medicare.) If we later determine that the services are not covered or were not medically necessary, we may deny coverage and you will be responsible for the entire cost.

Emergency care can always be obtained in or out of the service area from the nearest available provider. In addition, when out of the service area, you can obtain dialysis treatment from any qualified dialysis provider.

A "medical emergency," when you believe that your health is in serious danger, includes severe pain, a bad injury, a sudden illness, or a medical condition that is quickly getting much worse. If you have a medical emergency, get medical help as quickly as possible. Call 911 for help or go to the nearest emergency room, hospital, or urgent care center. You do not need to get approval or a referral first from your doctor or other network provider. You may get covered emergency medical care whenever you need it, anywhere in the United States. In addition, supplemental emergency worldwide coverage is included as a plan benefit. As soon as possible, make sure that we know about your emergency.

While you are a member of our Plan, you may use either network providers or out-of-network providers. However, your out-of-pocket costs may be higher if you use out-of-network providers, except for emergency care or out-of-area dialysis services. You do not need to get a referral or prior authorization when you get care from out-of-network providers; however, before getting services from out-of-network providers, you may want to confirm with us that the services you are getting are covered by us and are medically necessary.

The directory begins on Page 1. It lists our plan's primary care providers, specialists, hospitals, skilled nursing facilities, outpatient mental health providers, chiropractors, and ancillary providers in the state of South Carolina.

To select a provider from this directory, find the county you live in or a county that is convenient for you. Listed beneath the counties are cities; and listed beneath the cities are the providers and types of practices (such as Family Medicine, Internal Medicine, or Surgery), with their addresses and telephone numbers. The counties, cities and provider types are arranged alphabetically. If the physician you choose belongs to a group practice, the name of the group practice will also appear under his or her name.

Typically, your primary care provider will provide most of your health care; but you may also see any specialist without a referral. This directory lists primary care providers and specialists.

To provide quality service to our members, we have asked our plan providers to identify foreign languages they or their office staff members speak, in addition to English. The additional languages a doctor or his/her office staff speaks are noted under the provider's name in the directory.

If you have questions about BlueCross Total, Total Value and Blue Basic, please call Customer Service at 1-855-204-2744.
